

Perfection as a circle

Push-button clasp series
from Schmale

The first impression counts

Quality, luxury and longevity are obvious at first sight. But the key to success is pure elegance from the packaging to the clasp.

... the second impression lingers

Exquisite style and functionality are hallmarks of the push-button series.
A small part with a big impact. Universal application is combined with
timeless elegance.

The understated art of safekeeping

The Schmale push-button clasp excels compared with conventional clasp systems thanks to its elegant integration almost flush to the front of the case and the certainty of safekeeping.

The ultimate touch of perfection

Sophisticated design and handling: the clasp effortlessly opens at the finest touch of about one millimetre. The touch of perfection was never so light.

Simply unique

The push-button clasp series presents multiple visual and technical design options. Every model is tailor-made to suit your requirements for high-end design.

*

The original – always more exclusive

Luxury packaging deserves premium quality clasps.
Our experts realize your ideas with the utmost care – creating exclusive
products supported by exceptional service.

**

The perfect clasp

An innovative component adds finesse to your luxury packaging – with high-end and elegant styling. A clasp system that meets your aspirations.

We look forward to hearing from you.
